

Pulse Oximetry for the 21st Century.

Westprime prides itself in providing effective and innovative solutions for medical applications. Our Pulse Oximetry solutions include high quality reusable probes and extensions and two disposable systems for your Adult, Pediatric, Infant and Neonate patients.

Our technical and sales support team prides itself in providing you the best technical and sales support when you need it. Look to Westprime for a *better value* in Medical Technology and Innovation.

Westprime introduces the **DTS™ Disposable Oximetry System**. A better way to take SpO₂ measurements in 3 adhesive materials and 4 sizes.

These fully disposable systems are CE marked and produced at an ISO 9001 registered facility and can be used with the majority of your existing monitoring equipment.

Application:

Four available sizes:

Adult
(patient weight >30 Kg)

Pediatric
(9 to 50 Kg)

Child / Infant
(3 to 22 Kg)

Neonate/ Multisite
(Neonatal >3 Kg, Adult >40Kg)

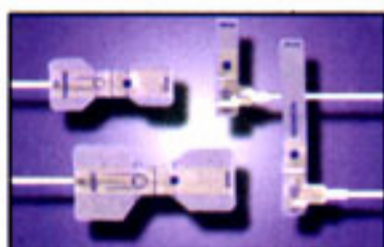

A & P Cable length is 45cm (17.7 inch)
C & N Cable length is 90cm (35.4 inch)
